-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Response to Arguments*

Applicant's arguments filed December 1, 2006 have been fully considered but they are not persuasive. The Applicant argues that Dutcher (US 4,381,013) does not disclose "J" shaped stylet with a tapered zone. However, Dutcher does in fact disclose a tapered zone extending within the curved intermediate segment.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-4, 8-12, 16-20 and 24-27 stand rejected under 35 U.S.C. 102(b) as being anticipated by Dutcher (US 4,381,013) for reasons previously made of record.

The Applicant argues that Dutcher (US 4,381,013) does not disclose "J" shaped stylet with a tapered zone. However, Dutcher does in fact discloses a tapered zone extending within the curved intermediate segment.

Dutcher in figure 6 displays a two-piece stylet in a "J" shape (please see below).

11/13/06

As previously stated the different diameters are as follows:

Diameter A is located in the substantially straight distal segment,

Diameters B and D' are located in the curved intermediate segment and

Diameters D, C and A' are located in the substantially straight proximal segment.

The portion between diameters B or D', which originate in the curved section, and diameter A, located at the distal end, form a segment BA or D'A. Since the diameter B or D' is larger than diameter A, the segment BA or D'A is inherently tapered towards the distal tip. Therefore, Dutcher does disclose a tapered zone extending within the curved intermediate segment.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 5-7, 13-15, 21-23 and 28-30 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Dutcher (US 4,381,013) in view of Hartley et al. (US 20040073141 A1) for reasons previously made of record. Since Dutcher does disclose a tapered zone extending within the curved intermediate segment, the arguments in regards to claims 5-7, 13-15, 21-23 and 28-30 are considered moot.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
